AiTHER SYSTEMS

AitherSystems.com

Key Benefits of EaaS

An LFP battery energy storage system that works in concert with your utility provider

✓ Maximize network uptime

Instant, automatic backup power with **99.5%** availability, backed by contract.

✓ Cut electricity bills by +10%

Estimated annual savings per tower from load shifting to low-cost hours.[1]

✓ 4 – 72 hours of backup power

Modular 16 kWh LFP battery modules, sized to the space at each site.

✓ No upfront costs

Zero capex. One monthly fee based on your BESS configuration.

✓ No performance risk

Aither Systems provides **100%** of the monitoring and maintenance.

✓ Cut generator costs by up to 60%

Annual savings when paired with existing gensets. Less fuel burned.

Improve resiliency with no upfront costs
